

Mpho Precious Mashigo

Enterprise Retail Operations & Intelligent Automation Technologist

South Africa | hello@example.com | linkedin.com/in/example | Available for enterprise & remote engagements

PROFILE

Operations technologist working at the intersection of store execution, process automation and data. I redesign the workflows behind trading, then automate what should never have been manual — delivering resilient store systems, RPA workflows and operational intelligence at enterprise scale. *(Placeholder summary — edit freely.)*

CORE CAPABILITIES

- Retail operations design
- Store systems & POS integration
- Supply chain & stock accuracy
- Vendor & stakeholder management
- Intelligent process automation (RPA)
- Data pipelines & operational reporting
- Process mining & workflow optimisation
- Governance, controls & compliance

SELECTED EXPERIENCE

- Operations Automation Lead — Enterprise Retail Group**

2022 – Present

 - Led automation programme across store operations, cutting manual reporting effort by ~40%.
 - Designed exception-based workflows for stock accuracy across 200+ store network.
 - Partnered with IT and trading teams to standardise operating procedures and controls.
- Retail Systems & Process Specialist — National Retailer**

2019 – 2022

 - Rolled out POS and back-office system changes with structured change management.
 - Built operational dashboards used by regional managers for daily trade decisions.
 - Reduced end-of-day reconciliation time through process redesign and tooling.
- Store Operations Analyst — Retail Chain**

2016 – 2019

 - Analysed store performance data and translated findings into practical actions.
 - Supported rollout of stock-take and compliance routines across multiple regions.

TECHNOLOGY

Power Automate, UiPath, Python, SQL, Power BI, Excel automation, REST APIs, SAP / retail ERP, POS platforms, Azure, Git.

EDUCATION & CERTIFICATIONS

- BCom / BSc (placeholder) — University name, year
- Automation / data certification (placeholder) — issuer, year
